

## Elite Training Habits National, AO #10

*One of the players in our squad (pBus) did a bit of research during the covid lockdown about elite players and the manner of their training.*

*Having set his goals for the coming year, our squad player decided to reach out and identify what it is at training that makes the elite performers in our sport so great.*

*He reached out to numerous State, National and International players (23 in fact) to pick their brains and absorb as much information to adapt into his training regime to reach his goal.*

*The questions asked each player of interest was as follows:*

- What have you found to be your most effective / successful training regime?*
- How do you plan each training session?*
- How do you record each training session? (stats keeping)*
- What drill do you think is the best for a short training session?*
- What do you deem to be the most important skill in bowls?*
- What mental skills do you think are important?*
- What do you think has been the secret behind your successful career in bowls?*
- If you could share one thing that you wish you had known when starting bowls, what would it be?*
- What do you think it takes to become the best?*
- How did you overcome your biggest challenges to achieve what you have achieved?*
- If you were trying to teach someone what it takes to become the best, what would you tell them to 'fast track' their progress?*

*Their responses are paraphrased into digestible chunks that can easily be tried in our routine to find the perfect balance that suits any one of us best.*

*Below is the response from a player selected for today's website column with names deleted for privacy: Including a brief rundown of the player, representation, and their winning achievements.*

## #10 National, AO pairs, AO 4's,

- Start ramping up training a month out from the competition date.
- Technique is vital.
- Drills and weaknesses are training priorities.
- 1 jack 1 bowl training is effective.
- Be adaptable and willing to change mid-session to work on immediate weakness.
- Being obsessive is the secret to success.
- Work Hard, be dedicated and surround yourself with the best.
- Be relentless to become the best (outwork everyone), leave no stone unturned and be selfish with tunnel vision to reach the pinnacle.
- No matter what gets you down, relentless practice and dedication will always see you rise greater than before and enable you to overcome all the doubts and challenges that you have faced.
- Never be comfortable in practice (always challenge yourself).
- There are no shortcuts to success, hard work and learning are the ingredients.
- Focus on effort and growth rather than results.
- Hard work is to be the rule, not the exception. Hard work is always a success no matter the result.
